# INDEX

## The Reference Catalogue of Current Literature.

\* All the catalogues of the various Publishers will be found alphabetically arranged and bound up in Volumes II and III.

This, Volume I, contains the Index separated into an AUTHOR INDEX and a TITLE INDEX alphabetically referring back to every book mentioned in the catalogues priced at 6d. or over.

If a book is published at only one price, that price is given. If at more than one price no price is given.

The Italics refer to the name of the Publishing firm and the numerals to the folio or folios under which the book will be found in the firm's catalogue (Vols. II and III).

If more than one entry of the book is made in that catalogue the reference here is indicated by 1, &c., 24, &c.

Publishers' lists which are represented by advertisements are indicated by "ADVT." in this Index and will be found in the preceding pages of this volume.

Where considered necessary for ready reference an entry has also been made under the Subject. This entry is included in the Title Index.
